

# Highway Markings

Applied correctly to specified dimensions, road markings are an essential contribution to the safety of the motorists on today's highways. Applied incorrectly they could be the complete opposite.

With QMS you have complete peace of mind. Our purpose built equipment together with skilled operatives ensure that your markings are applied to the correct specification on time, every time.

Using a combination of Screed and Preformed Thermoplastic, QMS is able to provide the complete solution for all your highway marking requirements.

Contact QMS today for a free quotation.

*"excellent work - very pleased, thank you" - WEB Construction*
